

Clark Forklift Parts

Clark Forklift Parts - Performing globally, there are now 350,000 Clark forklifts and lift trucks in operation, with more than 250,000 of those in use in North America. Clark has five main lines of forklifts across the world, making it one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 exclusive models of lift trucks, with parts covering more than 120,000 specialized components for all of its automated equipment. Your regional Clark Dealer is your complete source for availability of all your parts needs provided by Clark Totalift.

Clark's extraordinary Parts Distribution Stores are conveniently stationed in Louisville, Kentucky, which serves both their customers and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and customers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Motivated to supply the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to enhancing efficiency and benefiting performance.

Globally, Clark has one of the most impressive supplier support networks. With over 550 locations globally, seller representation in over 80 countries and 230 locations in North America, their high level of commitment to their consumers predominates the materials handling industry.

Clark proudly remains an progressive leader of the industrial equipment industry, pioneering protection features such as the worker restraint system. This exceptional dedication to safety is at this time a customary feature on every lift truck.

Clark's continual effort to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift producer across the world to be certified with the globally approved quality standard ISO 9001 for all of their manufacturing facilities. Furthermore, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any environmental limitations, thus placing them in a dominant market position.

Clark has selected the system of "Lean Production" at all of its assembly facilities for the reason that this technique is particularly economical and enables minimal use of resources. Established to guarantee maximum proficiency, this system is designed to discover and acknowledge the most effective ways for production facility management. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

By working together, Clark's product suppliers and engineers communicate towards enhancing product proficiency while minimizing costs. The new value engineering agenda combines modern product improvement and delivers improved customer support and service within the industry.
