

Lull Telehandler Part

Lull Telehandler Parts - Telehandlers by Lull have been providing load placement precision ever since the year 1959. The Lull telehandler could really help make the work easier and faster, whether the task entails transferring loads, positioning heavy steel or landing loads on scaffoldings. These units are complete with the patented Stabil-Trak stability system to ensure operator confidence.

The horizontal placement system by Lull can provide 80 inches of boom travel for precision placement capabilities. There are also many optional Lull attachments for their telehandlers to help do whichever task.
